

WHY YOU ARE NEVER ON YOUR OWN WHEN STUDYING ONLINE...

Support structures for students enrolled in online degree programmes

Application phase:

The **JLU Digital Campus** provides you with detailed information on the application process. The team of the **International Office** as well as course and faculty **study advisors** can help you with your questions. You also have the possibility to meet other JLU students living in Giessen by joining the „**Ultimate Get-together**“ every Wednesday evening online.

Admission and enrolment phase:

You will receive **instructional emails** from the JLU on how to enrol. Moreover, we provide **videos and FAQs** on the different electronic systems. On top of that, there will be a **virtual information week** at the beginning of the semester at which you can ask questions in person.

Study phase:

Sustainable Transition, for example, also offers an optional **summer school** with presence in Giessen!

Student advisory services will be available to you throughout your studies. You can use different **platforms** to connect with other students online and join a regular **intercultural format** or simply organise your own get-togethers with fellow students. Additionally, there are many other ways to connect: through **social media**, **German language classes** or **online sports classes**. And do not forget to check the **international calendar** for get-togethers with other students!

Examination phase:

Questions concerning contents of your class should be directed towards the respective **lecturer**. General questions, i.e. on the registration in exams, can be answered by the **examination office** or by consulting the respective **study regulations**. You can also use the online platforms to **learn together** or **create online study groups**.

Graduation and alumni:

A **virtual graduation event** and the possibility to sign-up as a **JLU alumnus** will give you the opportunity to stay in touch.
